

1896. The '4 Att's' Surcharge.

The large Roman Surcharge.

Surcharged by The Vacharindr Printing Office. The overprinted
Stamps to the number of 100,080, were delivered to the Post Office
in January 1896.

The Surcharge was set up to overprint 60 stamps (five horizontal
rows of six) at once, each sheet was therefore surcharged by two
operations, and there is evidence to shew that the lower halves
of all the sheets were surcharged first.
